3 Introduction

3.1 Purpose

The purpose of this document is to assist Vergic partner companies in their Pre Sales and Scoping activities by providing technical questions that are important to ask because the answers could make implementation more complex (and thus more costly).

4 Questions

4.1 Is the customer's web site offered through HTTP, HTTPS, or both?

4.2 Is the customer's web site, or any part of it, a Single Page Application (SPA)?

4.3 Is the customer currently allowing (or willing to allow) their web site to be loaded in an iframe?

4.4 Are there any cross-domain security features that might affect Vergic functionality?

4.5 Are there any HTTP security model features enabled?
